

## **Introduction to High School Computer Science**

### **After School Computer Programming Course**

MVHS Computer Science Teacher, Jeffrey Yee, and his CS students are coming to VMMS to teach an introductory computer science course. This course will be taught after school in May and June. Middle school students will learn computer programming by creating 2D animations using the Java programming language. Students will learn many of the major concepts taught in an introductory programming course, how to apply their math and logic skills, and how to develop their problem solving skills. Below are animations that students have created in Mr. Yee's class.

- **Introductory Meeting Tuesday 4/13, 3:30-4:00 pm**
  - [Zoom Link here](#)
- **Class Meeting Dates: May ??? and June ???**
